

Comparing Millennia & Katana

Get a quick snapshot of key features in our premium custom frameless (MIL) and value frameless (KTN) lines

Millennia is a premium line with expanded finishes, materials, modifications and custom options to fit demanding requirements.

Katana's streamlined offering was created to provide designers a budget-friendly option when price is the main factor in a project.

When personalization is desired, Millennia is the answer. The line offers a wide selection of SKUs, doors, woods and materials, plus custom capabilities.

Katana is all about simplicity, with a streamlined selection of doors, woods and finish options that make it a great choice for a basic cabinet package.

Both feature our durable, low-VOC finish that will look great for years to come.
