Organized Storage

Solutions for every home
Storage Solutions

Home organization is not only possible, it’s easy with Canyon Creek Cabinet Company Closets Plus. From the pantry, mudroom or linen closet to the walk-in of your dreams, we can help you put your stuff in its place.

This book is full of ideas and accessories that will get you started on the path to an organized home. Call us at 800-228-1830, ext. 299, to get in touch with a designer that can make it a reality.

Canyon Creek’s Closets Plus uses a hanging rail system that allows for easy, accurate installation. The rails can be hidden behind basic covers (top) or a deluxe cover that matches the panel material (above).

Cover: Seneca in Chai
Transform your closet and solve the clutter problem with accessories and features that make your closet feel larger. Adjustable shelves and closet rods make it easy to create well-crafted spaces in your home storage design.

The Pantry

The same shelves, drawers, baskets and hooks that organize your closet can transform your pantry as well. Even a section of closet rod is handy for towels, table linens and reusable market bags.

While white melamine is a classic option for the pantry, our wide range of colors in both melamine and wood will let you create the perfect look to complement your kitchen.

DESIGN NOTES: Curved corner shelves in both of these pantries do double-duty: they provide a nice design feature, and help keep items from getting lost in deep, crowded shelves.

Transform your closet and solve the clutter problem with accessories and features that make your closet feel larger. Adjustable shelves and closet rods make it easy to create well-crafted spaces in your home storage design.
Hidden clothes hampers, wire baskets, jewelry trays, shoe storage—even a wardrobe lift—it’s all here, and it’s all designed to make organizing your home as easy as possible! From the bedroom closet to the pantry or craft closet, you can select a storage option that fits your space—and your stuff—just right.

Accessories

With Canyon Creek’s Closets Plus, you have the ability to create a storage space that is both functional and elegant—it depends on the options and accessories you choose. All of our accessories and hardware are available in either Satin Nickel or Oil Rubbed Bronze; Polished Chrome is available on selected items.

Hardware available in Oil Rubbed Bronze and Satin Nickel. Poles include a Polished Chrome option. Deluxe closet poles feature a plastic sleeve over the top half of the pole, which helps protect the pole from scratches.

Accessories

With a custom closet, you can have the right storage in the right place for all of your items. That’s already a win—and then you get accessories that are designed to look great together. Let’s not forget the pull-out hooks and hangers that tuck into the sides of hanging spaces to gain even more functionality. With so many options, it’s easy to beat the clutter bug!

Pull-out Pants Rack - Removable Hangers

Pull-out Hamper

Tilt-out Hamper

Slide-out Belt Rack

Slide-out Tie Rack

Slide-out Scarf Rack

4-Hook Rack

Telescoping Valet

Clothes Hook

This compact closet packs in plenty of functionality. It includes a valet rod, belt rack, tie rack, acrylic dividers, a tilt-out hamper and drawer cubbies! Hanging rods at various heights and plenty of shelf space allow the bedroom to go dresser-free.
Here are some excellent space-saving ideas! The ironing board and mirror tuck neatly away next to your long-hang items, and simply swivel out when needed.

Get the feel of a high-end boutique with the shoe zen or spiral clothes rack, both of which make great use of those hard-to-reach corners.

Wire Baskets

In the closet, pantry, linen closet, even the mudroom, there are items that just don’t fit well on shelves. Drawers aren’t always the answer, either—sometimes you want to see what you have at a glance.

Wire baskets are a great tool for containing those odd shapes and sizes, and our liner options make them even more useful! The washable, removable canvas liner can be used for fruits and vegetables, and is also a good choice for a kid’s closet. The plastic bottom liner will help keep items from getting wrinkled or falling through the bars.
Wood Species & Stains

Wood closet components are available in the species below—in either particle-board or plywood—in the stain colors shown here. (Samples on maple)

Wood Door Styles

When designing your custom wood closet, having plenty of drawers is a given! Consider adding doors over some areas of shelving—not only will it add a high-end look to your closet, the doors will help protect out-of-season items from dust.
Wood Alternative Doors & Drawers

Durable and easy to clean, thermofoil and melamine products have a consistent appearance, with fewer of the color variations characteristic of natural wood.

All thermofoil doors are available in the colors shown below. Photos may not accurately represent actual product. Please view a larger door sample prior to placing an order.

Maximizing Space

If your closet is limited in size, we can help you create ample storage by utilizing every inch of available space. You can even cut shelves to fit around structural supports or to fit tall, narrow niches.
